Full Text (Online) Scholarly (Peer-Reviewed)

What is EDS?

It is a single user-friendly interface for discovery of the library's collection which includes:

1. Books
2. e-books
3. e-Journals
4. Videos and much more!

Essentially **EDS** is the Library's equivalent of a major internet search engine **BUT** it provides access to authentic content that isn't freely available via the open web!

Why use EBSCO Discovery Service?

EDS provides users with an easy, yet powerful means of accessing **all** of the institution's information resources (electronic & print) through a single search

How do I access?

1. Via **IUM** website (www.ium.edu.na) - *click on library*
2. <http://search.ebscohost.com> (*ask for login credentials from the library*)
